Chair Kimble opened the public hearing for PF21-020 at approximately 6:39 p.m. and reported on the purpose and process of a public hearing. She advised this item will be before the City Council on March 21, 2022.

City Planner Paschke summarized the request as detailed in the staff report dated March 2, 2022.

Member McGehee thanked staff and the developer for putting the pathway through. She appreciated that and wondered if there will be any landscaping along the parking area.

Mr. Paschke explained currently the plans do not show landscaping in that area. He thought the goal would be to put something along there. It is possible the landscaping will come with the adjacent development to the west, when that development occurs that there will be landscaping between the two. He noted he will speak with the engineer to see if there is the ability within that to be able to put at least some planting and staff will work with the next development to augment that on the property line between the two.

The applicant was not at the meeting.
