### **Master Sign Plan Regulations:** (from §1010.03D of the Roseville City Code)

1. **Purpose:** The purpose of the Master Sign Plan is to establish fair and equitable criteria for complex signage situations that accommodate the need for a well-maintained, safe, and attractive community, and the need for effective communications, including business identification.
2. **Effect of Master Sign Plan:** Upon approval of a Master Sign Plan, all future signs shall conform to the Master Sign Plan. Modifications to the provisions of the Master Sign Plan may be granted only with the approval of a new Master Sign Plan.
3. **Required:** A Master Sign Plan is required for:
  - a. Building complexes
  - b. Multi-tenant structures
  - c. Covered mall buildings, shopping centers, or strip malls
  - d. Planned Unit Developments
  - e. Area identification signs
  - f. Churches/places of worship/institutions/schools
4. **Criteria:** The following criteria should be used when developing a Master Sign Plan.
  - a. **Guideline:** If possible, the underlying zoning district regulations (pertaining to signage and listed in Section 1010.09) should be used as a guideline with minimum variations as needed to meet the intent of this Chapter.
  - b. **Location:** No freestanding sign shall be located closer than 5 feet to a property line, roadway easement, or other public easement. No freestanding sign shall be erected that, by reason of position, shape, or color, would interfere in any way with the proper functioning or purpose of a traffic sign or signal. No freestanding sign shall be located within the Traffic Visibility Triangle. No freestanding sign shall impede/impair traffic.
  - c. **Quality:** All signage shall improve the aesthetics or functional use of the site. All freestanding signs shall include materials that complement the architectural design/existing building materials, including but not limited to face brick, natural or cut stone, integrally-colored concrete masonry units/rock-faced block, glass, pre-finished metal, stucco or similar cementation coating, and/or factory finished metal panels. Landscaping may be integrated into any freestanding sign.
  - d. **Type:** All types of signs are permitted except those prohibited by Section 1010.02C.
  - e. **Size:** The size of all signage (building wall and freestanding) shall be limited to 1.5 times the maximum allowed under Section 1010.08 (Wall Signage).
  - f. **Height:** The height of any freestanding sign shall be limited to a height of 40 feet.
  - g. **Number:** The number of freestanding signs shall be reasonably related to the number of access points to public streets and/or the number of tenants within the multi-tenant structure.
5. **Approval Process:** Submittal of a Master Sign Plan application, appropriate/applicable information, and fee (\$250 residential and \$350 commercial/industrial) is required with the Office of Community Development. The Planning Division shall hold an administrative hearing and take appropriate action on requests for Master Sign Plan approvals. The following shall apply:
  - a. The City Planner shall schedule an administrative hearing before a subset of the Development Review Committee, including the Community Development Director, Permits Coordinator, City Planner, Associate Planner and/or City Department representatives as determined by the Community Development Director, hereinafter referred to as the Master Sign Plan Committee (MSPC) the time and place for which shall be set by the City Planner, to consider the proposed Master Sign Plan with respect to the criteria in Section 1010.03D4 of this title.
  - b. The applicant and contiguous/affected property owners shall be notified by the City Planner of such time and place in writing not less than 10 days prior to such hearing. The City Planner may notify additional property owners if a determination is made that such additional notification is merited.
  - c. The MSPC shall hold the administrative hearing as scheduled by the City Planner.
  - d. The MSPC shall render and forward a recommendation to the Community Development Director or Designee for approval and the Community Development Director or Designee shall make the final decision.
  - e. Should the applicant or a contiguous property owner object to the decision of the Community Development Director or Designee on the Master Sign Plan, an appeal may be filed within 10 days following the administrative decision by the Community Development Director or Designee. The appeal shall be made in writing and shall be addressed to the City Manager. The City Council shall take up the appeal at a regular meeting within 45 days on the appeal. The Master Sign Plan appeal shall follow notice requirements and other procedures contained in Chapter 108 of the Title.
